

Celebrating our Team!

RED LAKE MARGARET COCHENOUR MEMORIAL HOSPITAL

Living our values...everyday!

“I enjoy working at Red Lake hospital because the staff here are fantastic. Everyone is cheerful and always willing to lend a helping hand if needed.

My job is unique because we are such a small remote Northern hospital that you tend to take on more “job titles” than the one you have. In bigger hospitals there is an “IV team and CODE Team.” Here you are doing all of that yourself, with your co-workers.”

....Jasmyne, Nursing

Working towards excellence in
Northern healthcare.

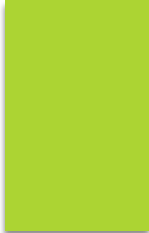

“My experience at the Red Lake Hospital has been one to be proud of. Although the healthcare sector everywhere has been more stressful than usual due to the pandemic, the team here always tries to help each other out. Being such a small town, the people and community are incredibly kind and giving. It also really helps that Red Lake is absolutely gorgeous with so much to do for an avid outdoors person.”

....Janny, Nursing

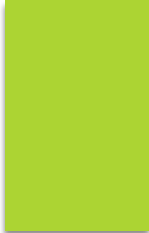

“I enjoy working at the Red Lake Hospital because everyone is included in a team atmosphere. My favourite part of my job is seeing and talking to the patients. I love going that extra mile to put smiles on everyone’s faces.”

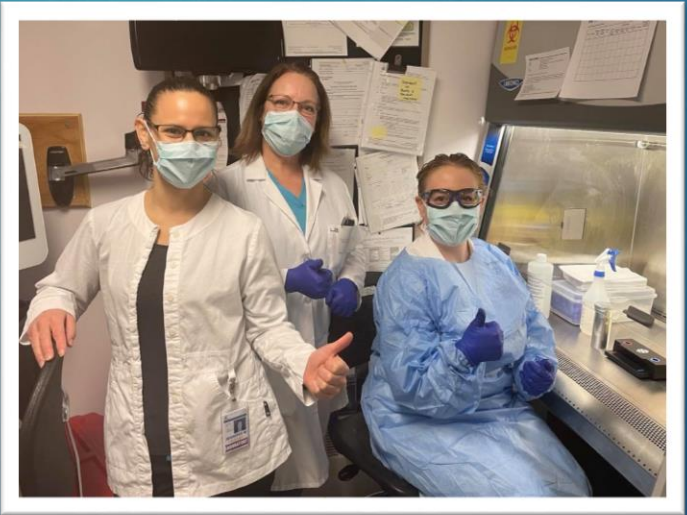

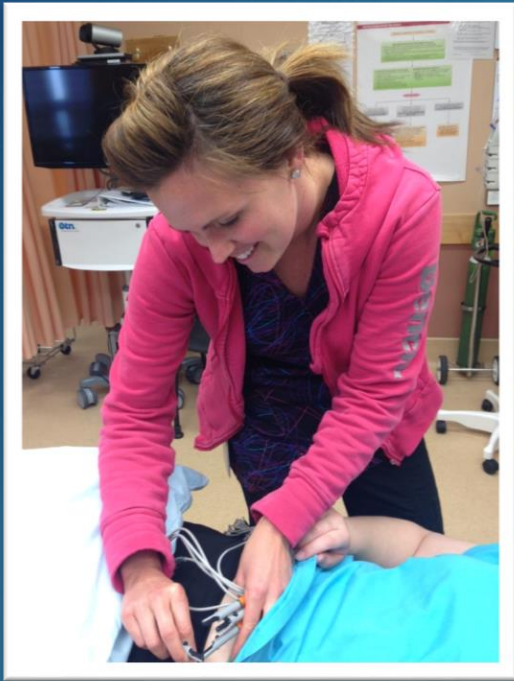

....Debbie, Food & Nutrition

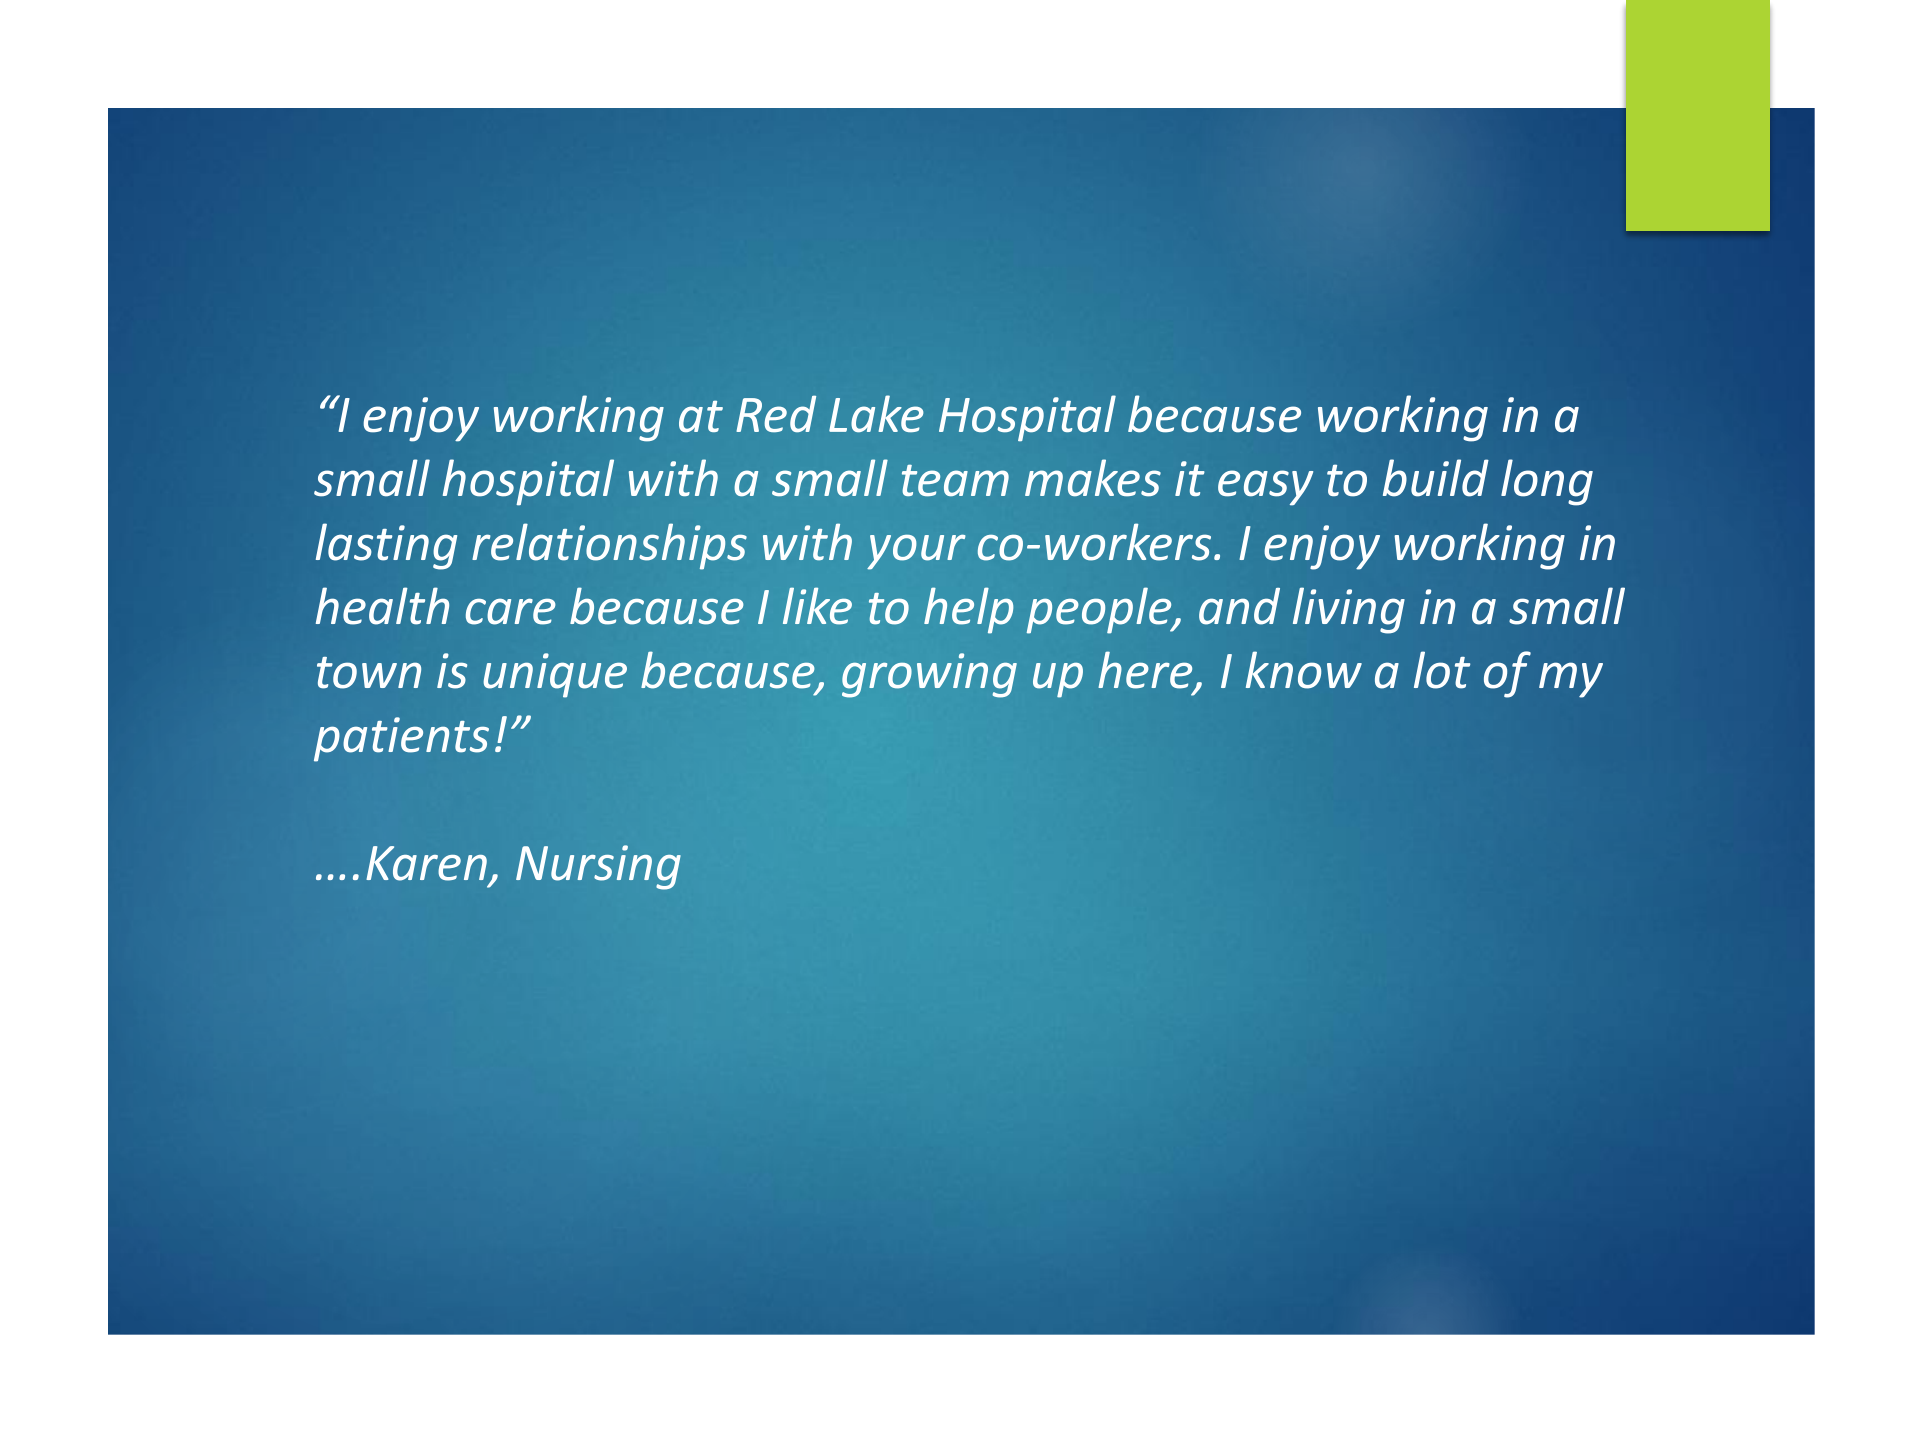

Compassionate, quality care –
every patient, every time!

“I enjoy working at Red Lake Hospital because working in a small hospital with a small team makes it easy to build long lasting relationships with your co-workers. I enjoy working in health care because I like to help people, and living in a small town is unique because, growing up here, I know a lot of my patients!”

....Karen, Nursing

“I have loved working at RLMCMH mostly because of the kindness and care of our team towards patients, their families, our community, and each other. We get to know our patients and go the extra mile to personalize their care experience, all while we enjoy working hard together!”

....Sue, CEO

Learning together
& supporting
each other!

“I came for 2 years, and somehow I’ve been here for more than 20 now! Why?”

- *My house is my cottage ... I live on the lake*
- *My commute is 6 minutes...with one traffic light*
- *Work-life balance really is a thing here!*
- *People say “hi” to each other!*
- *Colleagues become friends*
- *We are generalists, so no one day is like another!”*

....Marcia, Community Counselling & Addiction Services

“I enjoy working at the hospital because we're a tight knit community and I get the opportunity to help those community members.

My role is incredibly unique and exciting, not like anything else I've ever experienced. I get to wear lots of hats and I'm always being challenged and having to think outside the box.”

....Janine, Nursing

“Working at Red Lake Hospital is great! The team I work with, we are there for each other. Healthcare can be very satisfying knowing you are helping someone by delivering a meal or just putting a smile on someone’s face.

My job as a Food & Nutrition Team Lead is unique and versatile. From developing menus and coaching my Team to printing out jokes for patients or setting up a birthday for a staff member!”

....Penny, Food & Nutrition

Come be part of
our Hospital &
Community!

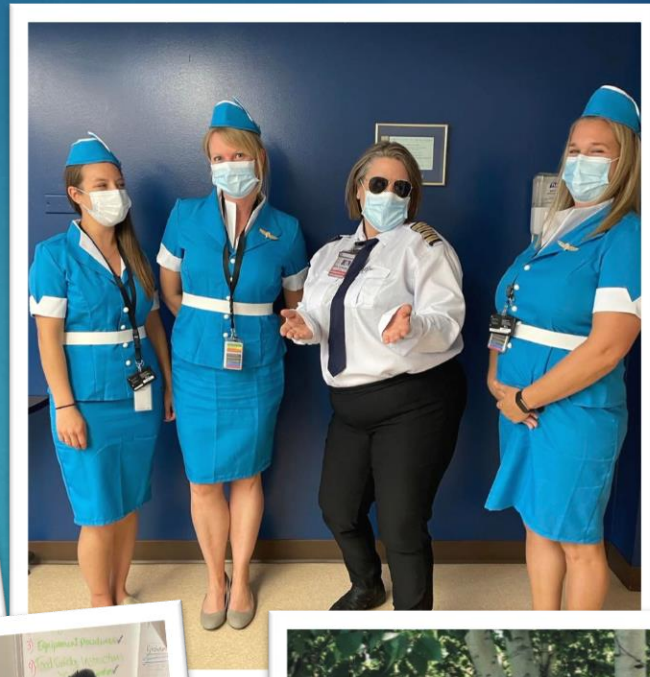

*“Six months? HA! Eight years later, here I am....still!
Administration is extremely supportive, understanding and
caring. I have made friendships that have turned into family.
It is a wonderful feeling to belong to a team.*

....Nicole, Nursing
