## **ActiveSync with Exchange 2010 Configuration for Cellphones**

## iOS: Setting up Exchange ActiveSync iPhone/iPad/iTouch

Tap Settings > Mail, Contacts, Calendars > Add Account > Microsoft Exchange. Enter the information in the fields below, then hit Next:

Your iOS device will now try to locate your Exchange Server. If necessary, you will need to enter your front-end Exchange Server's complete address in the **Server** field.

Email: flastname@redlakehospital.ca Server: mail.redlakehospital.ca Domain: rlh Username: flastname (only name before @) Psword: as given by IT Description: RLH Exchange (you can change this if you wish)

ancel	Next				
Email flastname@redlakehospital.ca	Cancel		Exchange		Next
Server mail.redlakehospital.ca	Ema	il flastname	e@redlakehospital.c	a	
Domain rlh	Dese	cription RLH E	xchange

			Mail	Exchange	

Choose which content you would like to synchronize: Mail, Contacts, and Calendars. Tap **Save** when finished.

**Note:** To modify your exchange settings, Tap **Settings** > **Mail, Contacts, Calendars**, select your Exchange account, and tap **Account Info.** 

## Additional Information

For additional Exchange resources, please visit the iPhone Enterprise Support Page or Exchange ActiveSync and iOS Devices in the Apple Help Library.
